The Second European Symposium on Symptom Validity Assessment

with

Jerry Sweet (USA), Kevin Bianchini (USA), Kyle Boone (USA), Lloyd Flaro (CA), Roger Gervais (CA), David Gill (UK), Manfred Greiffenstein (USA), Kevin Greve (USA), Vicki Hacker (UK), Michael Kopelman (UK), Harald Merckelbach (NL), Thomas Merten (D), Ben Schmand (NL), Rolf Schneider (D), Jack Spector (USA)

May 20–21, 2011

at
University College London
Institute of Child Health
30 Guilford Street
London (UK)

The Second European Symposium on Symptom Validity Assessment

Symptom Validity Assessment (SVA) is an area of almost unparalleled growth in neuropsychology and it continues to feature prominently in new textbook and journal publications.

Following on from a successful *First European Symposium on Symptom Validity Assessment* in Germany (May, 2009), the follow-up meeting aims to provide delegates with up-to-date information and clinical guidelines on SVA. Keeping up with conceptual and research advances in a rapidly developing area can be a challenging task for all clinicians. To facilitate this process, the symposium organisers have brought together leading international experts to share their knowledge and experience. The program includes material which was not addressed in the first meeting (such as paediatric issues) and expands on areas which could only be touched on previously. The result is a unique two-day symposium that promises to be informative and cutting edge. The symposium will be of interest not only to neuropsychologists but also to professionals working in related disciplines such as neurology, neuropsychiatry and psychiatry. Along with the organising committee, I look forward to welcoming you to the *Second European Symposium on Symptom Validity Assessment* in London (20-21 May 2011).

Dr. Stuart Anderson [Program Chair]
Sussex Rehabilitation Centre, UK

P.S.: See a retrospective of the "The First European Symposium on Symptom Validity Assessment" in Würzburg (08th - 9th May 2009)

Friday 20 May 2011
10:00 - 18:00

09:30 - 10:00 Arrival / Registration, Tea & Coffee

10:00 - 10:10 **Prof Dr Rolf Schneider and Dr Stuart Anderson (Program Chair)**
Welcome

Session 1
Symptom Validity Assessment: Introduction to Application
Moderation: Kevin Greve

10:10 - 10:55 **Jerry Sweet**
Detecting Malingered Neurocognitive Dysfunction: Applying What We Have Learned to Individual Cases

10:55 - 11:45 **Kyle Boone**
Diagnostic Frameworks in the Assessment of Noncredible Symptoms

11:45 - 12:30 **Manfred Greiffenstein**
Dual Diagnosis

12:30 - 13:30 Lunch + Poster Viewing

Session 2
Symptom Validity Assessment: Methodological Issues and Detection Strategies
Moderation: Vicki Hacker

13:30 - 14:15 **Kevin Greve**
Malingering Research Designs

14:15 - 15:00 **Kevin Bianchini**
Forced Choice Symptom Validity Tests

15:00 - 15:15 Tea & Coffee Break

Session 2 continued
Symptom Validity Assessment: Methodological Issues and Detection Strategies
Moderation: Kevin Bianchini

15:15 - 16:00 **Kyle Boone**
Embedded Symptom Validity Indicators and Recommendations for Using Multiple Symptom Validity Indicators

16:00 - 16:45 **Roger Gervais**
Malingering Detection: Examples from MMPI-2-RF Applications

16:45 - 17:30 **Jerry Sweet**
Professional Practice Guidelines for the use and interpretation of SVTs: The Time has Come

17:30 - 18:00 Poster Session (Data-Blitz Presentation)

18:00 – 20:00 Buffet Dinner

Saturday 21 May 2011
09:00 - 16:30

Session 3
Special Topics in Symptom Validity Assessment
Moderation: Ben Schmand

09:00 - 10:00 **Lloyd Flaro**
Paediatric Issues

10:00 - 10:45 **Jack Spector**
Elements of primary and secondary gain can exist in factitious disorder and malingering

10:45 - 11:00 Tea & Coffee Break

Session 3 continued
Special Topics in Symptom Validity Assessment
Moderation: Harald Merckelbach

11:00 - 11:20 **Thomas Merten**
A Short History of Resistance Against Symptom Validity Assessment

11:20 - 11:40 **Rolf Schneider**
What Neurologists Contribute to Identifying Malingering

11:40 - 12:00 **David Gill**
Use of SVTs in UK Psychiatric Practice

12:00 - 12:30 **Various**
Data Blitz Session (a selection of short presentations and 5 minutes question time)

12:30 - 13:30 Lunch + Poster Viewing

Session 3 continued
Special Topics in Symptom Validity Assessment
Moderation: Thomas Merten

13:30 - 13:50 **Harald Merckelbach**
The Continuum Between Feigning and Somatoform Symptoms

13:50 - 14:40 **Kevin Bianchini**
The Financial Incentive Effect: It's Not Just Malingering

14:40 - 15:30 **Michael Kopelman**
Problems and Issues in differentiating Neurological, Psychogenic, and Simulated Amnesia

15:30 - 15:45 Tea & Coffee Break

Session 3 continued
Special Topics in Symptom Validity Assessment
Moderation: Manfred Greiffenstein

15:45 - 16:30 **Manfred Greiffenstein**
Societal Implications of SVT Usage
The closing session will comprise a brief presentation by Dr Greiffenstein followed by an *Open Discussion* in which key speakers will engage in a question and answer session with symposium delegates.
