Akademie bei Koenig & Mueller and
Hotel Haus Franken Würzburg

George P. Prigatano, Ph.D.

(Barrow Neurological Institute, St. Joseph's Hospital and Medical Center, PHOENIX,USA)

02.08.2008, 8.30 am - 4.00 pm

Workshop-Code: FB080802A:

The Psychological Care of Patients with Brain Disorders

- Brief review of cognitive and affective development in children and adults – what typically happens during development if there is no brain damage?
- Brain damage at different times in the life cycle: its impact on neuropsychological, psychodynamic, and psychosocial functioning
- Toward understanding the direct and indirect effects of brain damage on personality
- Ingredients of psychological care and their relationship to formal psychotherapy
- The long-term psychological care of persons who suffer traumatic brain injury during young adulthood
- Psychological care of persons who demonstrate mild cognitive impairment and early stages of dementia
- Psychological care of school-age children (and their families) after TBI
- Psychological care of spouses of brain injured adults

George P. Prigatano, Ph.D.

(Barrow Neurological Institute, St. Joseph's Hospital and Medical Center, PHOENIX,USA)

03.08.2008, 8.30 am - 4.00 pm

Workshop-Code: FB080803A:

Anosognosia and Syndromes of Impaired Awareness

- Historical accounts of anosognosia and the clinical phenomena
- Recent studies on lesion location and anosognosia for hemiplegia
- Studies on the neuropsychological and neuropathological correlates of impaired self-awareness after TBI and dementia of the Alzheimer's type
- The effect of anosognosia on the process and outcome of neurorehabilitation
- Theoretical considerations in understanding anosognosia, syndromes of impaired self-awareness, and denial as a psychological method of coping following various forms of brain damage

Prof. George P. Prigatano, Ph.D.
Phoenix, Arizona, USA
